Cartridge, Caliber .30 , Carbine

The cartridge, officially named the **Cartridge, Caliber .30 , Carbine** , was developed by the Winchester company.

In its military carnation it is a straight-case, rimless design with round-nose bullet weighting 110 grains.

New Production Ammo can be found manufactured by practically everyone.

Surplus Ammo - Found all over the place. Some is corrosive. If corrosive make sure you follow corrosive ammo cleaning guidelines or you will corrode you rifle bore. Most brass is pretty much unloadable.

Reloading Dies are made by [Dillon Precision](#) , [RCBS](#), [Redding](#), and [Lee Precision](#) , to name a few.

Reloading components can be found at [Huntington's](#), [Midway USA](#) , and the [Wholesale Hunter](#) , to name a few.

Brass - Almost all US manufactured ammo produces good once shot brass and components abound.
